

Say
Hi
 to your
 own
 preschool...

...with India's Largest Education Company

Little Millennium, (earlier Roots to Wings) is one of the first structured, process and IP driven preschool chains, with a pan-India presence. Promoted and owned by **Educomp**, the most transformational education company in India, **Little Millennium** enjoys access to the most advanced educational learning systems supported by a strong R&D team.

We are expanding !

If you want to start a **Little Millennium**, all you need is the **right amount of space**, a **small investment** and a **passion to invest in the future of the little ones**. **Great returns on this investment** also include a lot of happy moments as we walk the path together with our children to shape them into happy, social & confident individuals.

Existing preschools that would want to benefit from our excellent pedagogy & brand support are welcome to partner with us.

The Little Millennium team will be happy to meet you.
